

Southern Afghan Club Championship Show 6th December 2009
Dogs Val McCormack

My thanks to the committee for a well run show and to my very helpful Stewards
Since I last judged I feel the depth of quality is not as good. Several dogs lacked
muscle, fronts were average and a few youngsters had weak hocks all of which
affected movement

I was very worried to find several suspect mouths, something I have not really come
across much before.

On a brighter note Limit and Open were really strong classes with several quality
dogs and also some promising puppies for the future.
